

Summer Camp Mini Master Chef Cooking Classes SCAFA Lahore (2024)

Updated 31 May 2024

Embark on a culinary adventure with our 8-week/16-week summer cooking classes for children, designed to inspire and educate young chefs. Each session, lasting 3-3.5 hours, is a blend of fun, learning, and hands-on experience. Our program is tailored for children aged 7-13, where they will learn a variety of cooking techniques and recipes that go beyond the usual fare.

From mastering the basics to exploring international cuisines, our classes encourage creativity, teamwork, and the joy of cooking. Participants will cook individually or in pairs. Classes will start with an introduction or demo, followed by a fully hands on practical experience to create their own dishes, which they can savour in class or take home.

This program not only nurtures cooking skills but also fosters an understanding of nutrition and the importance of healthy eating habits. By the end of summer camp, your child will have gained confidence in the kitchen, a sense of culinary creativity, and the ability to try new things—all while having a great time.
